## From the Superintendent

Just a short explanation as to what's been happening in the way of course maintenance. The ponds on #3 and #17 have been emptied to allow for cleaning and installation of Venturi valves. These valves are installed in the pressurized pipes of the irrigation system and draw air from the atmosphere into the pond while water is being added. Aeration of stagnant bodies of water reduces algae build-up and the odour associated with it.

A retaining wall to accommodate the long talked about new green on #17 will also be installed while the pond is dry.

Other work includes the installation of two cart paths — one on #3 and the other between #8 green and #9 tee. The sandtrap on the right side of #8 green had to be filled in to allow us to run this path in the safest manner possible.

## From the Pro

Well, as predicted we received the Indian Summer everybody was looking forward to. With the course in the excellent shape it's in and the temperature reaching into the 20's this October, this fall has to go down as one of the best on record.

Unfortunately the season will be coming to a close shortly but with the winter season comes the Christmas sales! The Pro Shop will be open Monday through Saturday, 10:00 am to 5:00 pm from December 1st to 23rd.

During this time the shop will feature many specially priced clearance items, as well as many fantastic new items, such as Lyle & Scott sweatshirts and sweaters and Chipinski umbrellas. Of course, our usual quality items will be in stock for Christmas such as PING golf clubs, TAYLOR-MADE woods, MOUNTAIN bags, AUREUS shirts and many more items to choose from. We will also have in stock many neat stocking stuffers!

## Ladies Curling Club Executive

The Ladies Curling Club Executive would like to thank the people who took time to enter our Christmas Card Contest. Our winner's name will be published in the December Georgian as well as the winner of last month's 50/50 draw.

Our next 50/50 draw will be made on December 13th, so please have all your tickets sold and turned in before that date.

The Ladies Open Bonspiel will be held on February 24, 25 & 26, 1989.

We have over 25 beginner curlers registered in the Sunday Night Pro-Am. All keen to learn more about this great sport. If you have 1 or 2 hours to give on any Sunday night from 7:00 to 9:00, we could really use the help. A little bit of guidance at either end of the ice would greatly increase the new curlers' knowledge and understanding of the game.

Please call Linda Scofield at 562-0833 or Don MacQuarrie at 564-0833.

Please contact any of the following members of the Ladies Curling Club Executive if you have any questions, donations for the Cedar Chest or if you wish to purchase Christmas Cards.

The 4 ball scramble proved to be a popular format for the majority of the golfers and will be repeated next year.

Special mention to Gwen Labas, Grace Munro, Dale McDermid and Ziggy Zimmerman for adding a "touch of class" to the festivities.

Our sincere thanks to Dave McGrath, Rod, Lee and Tobin; Wes, Brad, Gloria and Flo, but most thanks go to my committee: Marg Niehaus, Sheena Pattullo and Nancy Young, without whom I would just be another floundering male chauvinist.

## Bridge Club

The Bridge Club is now in full swing on Monday nights in the Games Room at 7:30 p.m.

If you are a beginner or even have master points, drop in and play. It's a good way to socialize.

## Our Apologies

Our sincere thanks to Frank Hewlett & Sons for the Door Prize donation that was omitted from the Ladies Simon Fraser report in September 1988.

## Georgian Contest

Congratulations to Mr. Jim Perry for finding his membership number in the October issue of the Georgian. Jim has won dinner for two in the Dining Room.

The other membership number wasn't found, so again there will be two numbers hidden in November's Georgian.

If you find your membership number hidden somewhere in the November Georgian, give Brad or Debi a call at 563-0357.

## Ladies Daytime Racquetball League

**Tuesdays and Thursdays at 9:15 a.m.**

Come and get a little light exercise and have some fun. It's a good social time.

## From the Curling Committee

Seventy percent of the Curlers voted in favor of 8 end games. It was decided not to change draw times, so all games will be 8 ends, 6:45 p.m. and 9:00 p.m. This should give all teams time to play the full 8 ends and be off the ice on time.

## Wine and Cheese Icebreaker

The Annual Curling Wine and Cheese Icebreaker was a great success. Our thanks go out to Centennial Packers for sponsoring the event and to Kim Lancaster and Joe Rea for hosting it. Thanks also to those who donated Door Prizes.

## From the Ice Maker

Frost is the major factor affecting how heavy the ice is going to be during play. Generally the more frost that is present the slower the ice is going to be.

Frost build-ups occur due to moisture which is present in the air, condensing when it comes in contact with a cooler surface. If the surface is above freezing the condensing air will form dew; if the surface is below freezing the condensing air will form frost.

Condensation occurs because warm air can hold more moisture than cold air. Warm air at a temperature of 70°F may have a relative humidity (moisture content) of 70% but if this air is cooled to 40°F the relative humidity may increase to over 100%. When air has a relative humidity of 100% this means that the air is saturated and can hold no more moisture. Moisture present above the 100% relative humidity condenses and forms either frost or dew depending on the temperature of the surface the air comes in contact with.

The relative humidity of air in a Curling Rink can be controlled through the use of unit heater and exhaust fans. The relative humidity of the outside air effects the inside air when you can use the exhaust fans. If for example the air inside the Curling Rink is at 40°F and has a relative humidity of 80%. The outside air is at 60°F and has a relative humidity of 100% (rainy conditions), you do not want to use the exhaust fan. The reason for this is it will draw the cool dry air out of the Curling Rink and replace it with warm moist air from outside, increasing the relative humidity in the building. Thus, increasing the problem with condensation.

I hope this will give some idea of why frost occurs and how we try to manage it.

## Ladies "Ice is Nice" Funspiel

The first 4-ender spiel was held Sunday, September 25th with four rinks taking part.

Winners were declared by total points scored in all games played.

Winner was Ann Davidson's rink of Linda Sherian, Merja Fisher and Beth Steliga.

Second was the rink of Grace MacDonald, Joyce Michaud, Arlene Stainsby and Barb Davidson.

Third place went to Linda Peter, Pearl Boyce, Brenda Thompson and Marilyn Goetjen.

Last place was Diane Dalio, Linda Mackenzie, Janice Ouellette, and Debbie Buhler.

As this was the first curling of the season, apparently Monday saw a few stiff and sore muscles!

My thanks go to Pearl Boyce and Lynda Peter who took over at the last minute due to unavoidable circumstances.

Any comments or suggestions on improving this spiel would be appreciated. The idea was to have the spiel early enough to enable new curlers to try the game before signing for the year, but maybe it would be better to hold the spiel after the clinic is held next year. Your opinions would be appreciated.
